Les photos du dimanche

Isabelle Vaillant

Nathalie Papin

Sunday is often that children and parents playing together. Thus was born the series entitled *Les photos du dimanche*. These images reveal the innocence of the mystery play and attitudes of children and also carry a dizzying abyss setting of nature, life, and sometimes even death. In these photographs we discern a strangeness tinged with absurdity: we are "elsewhere", perhaps because of clothing or costume elements used to make a girl becomes a princess or a fairy, a fish a rod , rocks a treasure … Isabelle Vaillant looks at his subjects, his models, with a joyful complicity. They are creators of the stage of their images and their body as well as the artist, then they abandon themselves to the photographer, in full confidence.
