

# Littoral / Rivages de Charente

Marc Deneyer

François Bon

Result of an order of the Conservatoire du Littoral, the series travels Rivages Charente aspects of this fragile fringe of land that touches the sea, wedged between the steep south Brittany and estuaries of the Gironde. Natural processes in the maritime life – freshwater marshes, mudflats, cliffs, dunes, beaches – are revealed in an astonishing "surluminosité. A horizon line, in the middle of the image, cutting troubled skies which vibrates with the tide. Here, the human figure is absent, but we guess the presence and passages. This book invites a slow meditation, for a more contemplative approach, close attention to things. "
